

1. Designer Task Checklist

Brand & Global Identity Transition

- [] **Logo & Assets:** Replace all legacy "Eyecan Athletics" visual assets, logos, and icons with the new Axis Sports Lab branding.
- [] **Theme & Palette:** Polish the high-contrast dark mode aesthetic featuring vibrant volt green as the dominant conversion color.
- [] **Imagery Update:** Ensure background photography and graphics reflect high-performance sports science, data tracking, and elite athleticism.

Navigation Menu & Architecture Overhaul

- [] **Navigation Menu Split:** Completely separate memberships and rentals into their own dedicated top-level links. Implement this exact structure:
 - ABOUT | TRAINING | 3V3 LEAGUE | CAMPS | MEMBERSHIPS | RENTALS | CONTACT
 - *Note: Remove TEAMS entirely, and demote EBOOK to a footer lead magnet.*
- [] **Header Call to Action (CTA):** Update the top-right button to read "Book A Free Evaluation" styled in high-visibility volt green.

Individual Page Layouts

- [] **3v3 Open League Page:** Design a custom landing page for individual open draft pool sign-ups (not pre-made teams). Include sections for: *Concept breakdown, Age/Skill Divisions, Schedule, and the Intake Form space.*
- [] **Memberships Portal (/memberships):** Visually structure your premium membership tiers. Prominently display badges or graphics highlighting the 5 key outcomes: **Training + Exposure + Media + Digital Identity + Recruiting Infrastructure.** Include a mock-up of an "Elite Athlete Profile Dashboard."
- [] **Facility Rentals Portal (/rentals):** Create a clean, utility-driven page specifically for booking the facility/courts. Ensure it features a prominent layout built around an onscreen booking calendar.

2. Developer & GHL Backend Checklist

Domain, SEO, & Infrastructure

- [] **301 Redirect Architecture:** Configure server-level 301 redirects routing all traffic from eyecanathletics.com and its sub-pages to the new Axis Sports Lab domain.
- [] **Global Text Search-and-Replace:** Audit the entire repository to scrub any mention of "Eyecan Athletics," replacing metadata, SEO alt tags, and page titles with Axis Sports Lab.
- [] **Global Footer Update:** Update company details to match the facility:

- *Address:* 510 S Mason Rd Unit 16A, Katy, TX 77450 | *Phone:* (346) 550-8150 | *Email:* info@axisportslab.com

GoHighLevel (GHL) Revenue Funnels & Checkout Integrations

- [] **The "Free Evaluation" Calendar Funnel:** Embed a GHL calendar named "Free Evaluation Workout" directly onto the site. Wire all primary homepage conversion buttons to point to this calendar.
- [] **3v3 Open League Portal:** Embed a multi-step GHL Form/Survey capturing player and parent details. Connect a GHL Stripe product to mandate upfront payment upon submission.
- [] **Memberships Revenue Portal:** Wire each membership tier button to a specific GHL subscription checkout page utilizing Stripe recurring billing products.
- [] **Rentals Revenue Portal & Questionnaire:** * Create and embed a dedicated **GHL Facility Rental Booking Calendar** that allows users to pick available time slots and bills them a flat or hourly rate instantly via Stripe.
 - Before checkout completion, force a redirection or multi-step step to a **Detailed Rental Questionnaire Link** built inside GHL to collect crucial event/rental parameters.

3. Automated Customer Service Department (AI & Omnichannel)

- [] **Website Live Chatbot:** Activate and embed the **GHL WebChat Widget** globally across all pages, styled to match your dark/volt-green theme.
- [] **GHL Conversational AI Agent Training:** Toggle on the GHL AI Conversation Agent in "Autopilot" mode. Train the AI bot with your FAQ, pricing tiers, rental rules, 3v3 open league parameters, and training schedules.
- [] **Social Media DM Automation:** Sync your newly created **Instagram** and **Facebook** accounts to the GHL Inbox. Configure the AI Agent to automatically reply to incoming customer DMs instantly.
- [] **Missed-Call Text-Back (AI Phone Agent):** Enable GHL's Missed-Call Text-Back feature. If a customer calls (346) 550-8150 and the team misses it, the system must instantly text them back: *"Hey, sorry we missed your call! This is the Axis Sports Lab virtual assistant—how can I help you book a facility rental, join our 3v3 league, or claim a free workout today?"* ---

4. Social Media Platform Infrastructure

- [] **Handle Securement:** Register matching handles across all major platforms (@AxisSportsLab or @AxisSportsLabKaty).
- [] **Platform Build-Out:** Launch professional business profiles for **Instagram**, **Facebook**, **TikTok**, and **YouTube Shorts**.

- [] **Profile Optimization:** Standardize all bios: *"The digital infrastructure for elite athletes. Powered by sports science, biomechanics, and data tracking. Katy, TX."* Add a trackable GHL link pointing directly to your website's **Free Evaluation** page.

5. Content, Copywriting, & Captions Checklist

Ensure your team swaps out the old copy on the live layout with this outcome-driven, sports-technology copy:

- [] **Main Hero Text Adjustment:**
 - **"THE DIGITAL INFRASTRUCTURE FOR ELITE ATHLETES.** Axis Sports Lab integrates advanced sports science, biomechanics, and data tracking to optimize human performance. We don't just run drills; we build engineered athletes from the mind, body, and spirit up."
- [] **Hero Call-To-Action Updates:**
 - Primary Button: **"Claim Free Assessment"** (Links to GHL Calendar)
 - Secondary Button: **"Explore the Tech"** (Scrolls to Programs)
- [] **Core Program Description Updates (Homepage Cards):**
 - **01 | SHOOTING CLASSES:** *"Biomechanical Shooting Optimization. Master your shot utilizing progressive micro-drills, catch-and-shoot mechanics, and game-speed release analysis to ensure maximum form retention."*
 - **02 | SKILLS TRAINING:** *"Neuromuscular Skill Acquisition. Complete guard and forward development. Enhancing processing speed, spatial awareness, footwork efficiency, and decision-making under high environmental pressure."*
 - **03 | ATHLETE TRAINING:** *"Kinetic Performance & Plyometrics. Full-body athletic data optimization focusing on rate of force development (RFD), vertical velocity, deceleration mechanics, and injury-prevention infrastructure."*
 - **04 | ELITE CAMPS:** *"High-Intensity Lab Diagnostics. Multi-day athletic crucibles combining real-time competitive evaluation, high-velocity repetitions, and comprehensive data feedback metrics."*
- [] **Membership Section Core Value Proposition (Outcome-Based Copy):**
 - *Insert text prominently above membership pricing tiers: "WE DON'T JUST TRAIN. WE BUILD YOUR DIGITAL INFRASTRUCTURE. Every Axis Sports Lab membership is a complete ecosystem delivering five critical outcomes: Training + Exposure + Media + Digital Identity + Recruiting Infrastructure. Every Axis athlete receives a professional, centralized Athlete Profile designed to showcase your skills, achievements, highlights, growth, and athletic lifestyle to the world."*

We deliver the definitive blueprint for recruitment and athletic dominance."

- **[] Footer Form Caption Adjustment:**
 - **"Download the Axis Athlete Blueprint: The Tech Guide to Vertical & Skill Optimization."**
